A Blood Donation

Did you know that approximately thirteen tests (eleven for infectious diseases) are performed on each unit of donated blood, and only 37 percent of the U.S. population is eligible to give blood? (only about 10 percent do annually).

After we give blood, we enjoy a snack and return to normal activities. We give what we can easily spare; but Christ gave His very life's blood. "And Jesus cried with a loud voice, and gave up the ghost" (Mark 15:37)

Our blood donation goes out of date after 42 days; Christ's blood is eternally fresh. U.S. blood centers often have difficulty maintaining even a three-day supply for routine transfusion demands. Christ's blood's life-giving power is as strong today as it was when it was given at the cross. We may give many times, but Jesus could give only once. It will never need to be replenished. It will remain effective until the end of time.

ONE PINT OF YOUR BLOOD CAN SAVE UP TO THREE LIVES; ONE DROP OF THE BLOOD OF CHRIST CAN SAVE THE WORLD (JOHN 3:16) HTH

HOMEMADE LASAGNA NIGHT!
